19 February 2013

Dear Mr Farrer

Life Fourways Hospital is able to supply emergency medical care to the pupils of Pecanwood College. The following points are relevant:

- Life Fourways Hospital offers a 24 hour Accident & Emergency unit, backed up by a full team of medical specialists, comprehensive radiology facilities and pathology laboratories. The A & E unit is equipped to treat the most critically injured patients with a full adult and paediatric resuscitation unit.
- All pupils should be registered on our system. We require a completed Impilo Patient Information Form per pupil as well as a copy of their ID, medical aid card and copy of the ID of the parent or person responsible for the account. When the information has been loaded on our system each pupil will be provided with a 'number for life' card with a unique patient number that can be used at any Life hospital in Southern Africa.
- Life Fourways Hospital accepts all registered local medical schemes, including Bomaïd. Some schemes have certain plans that have a defined list of service providers. In this instance the patient would be stabilised at Life Fourways and then transferred to the designated facility.
- Life Fourways Hospital is a Discovery network hospital, and is a designated Delta option service provider. We have the only Discovery member lounge in the country. This facility, situated in our main reception offers emergency overnight accommodation for Discovery members who have travelled far so that they can be close to their family member who is in hospital. The lounge also offers a relaxation corner, complimentary snacks and drinks, a playroom, cellphone charging facilities and internet terminals. Discovery consultants are available 24hrs a day, every day of the week to assist with basic queries and assist with contacting a Discovery trauma counsellor if required.
- Life Fourways Hospital offers a free emergency medical response vehicle staffed by advanced life support paramedics and equipped with state of the art medical equipment. This service is accessed through dialling **0860 444 0444**

We look forward to providing your college with quality emergency medical care. Please do not hesitate to contact me should you have any additional questions.

Yours sincerely

Jane Lamprey
Marketing & Communications Manager
