

PECANWOOD --- COLLEGE

ADMISSION POLICY

Pecanwood College has adopted a policy in which every family applying for admission to the College will be given equal opportunity irrespective of gender, race, religion or cultural background. However, the family will be informed in the interview that the College subscribes to a strong Christian ethos.

Admission to the College will be on the condition that all the necessary requirements contained within the Enrolment Procedure (attached) are fulfilled. Also, Parents / guardians enrolling their child / children at Pecanwood College are required to take note of their **inferred** agreement to a routine placement test. This assessment is a means of establishing their child's current learning potential and will serve as a basis for developing an individual learning portfolio for him / her. This should ensure that his / her academic progress is monitored and any areas of potential difficulties or strengths are identified, enriched and / or supported. Pecanwood College also holds the privilege to extend **conditional** acceptance to the school based on the parents / guardians willingness to commit to further assessments, therapy or remedial services as deemed fit and relevant.

Should a family not be in a position to afford the fees payable for admission to the College, the family can apply for a bursary from the Pecanwood Education Trust (P.E.T.)
